

WHAT IS THE MASTERPATH?

The MasterPath is not a new Teaching, for the spiritual Current upon which it is based has always been the centerpiece of every Saintly Teaching. The spiritual principles have remained perfectly intact throughout the ages and are not subject to change or alterations. Even though MasterPath is a new name, the Light and Sound Teachings are eternal, and all Saints have given the same message, the same truth, regardless in which culture or time period they have manifested.

The MasterPath is an exact science of spirituality that has as its objective the attainments of Self and God Realization while living within this physical body. The essence of the Light and Sound Teachings is that every human being is one. It is this oneness that must be resurrected and understood by all those desiring to re-experience their innate spirituality. MasterPath is the spiritual process of merging back into the Creator, just as the drop merges back into the ocean, for its objective is to re-establish the internal connection between the individual soul and the indwelling Sound Current. It is a natural science, and it is complete in every human being, regardless of race, culture, or spiritual preferences.

The MasterPath's purpose is to disentangle the soul from the tyranny of mind and matter, restoring its pristine freedom once again. The MasterPath offers a precise method by which to transcend all karmic limitations, directing the seeker to an experience of profound spiritual illumination.

The hallmark of excellence in all spiritual endeavor is the attainment of your own Mastership, and the illuminated Path that leads to this crowning glory is secretly placed within your own body. You are both the eventual Master and the sacred Path, and for these reasons, this ancient spiritual doctrine has been named the MasterPath.
